

## Minispir<sup>TM</sup>

Computer based spirometer with oximetry option

✓ Incomparable Clinical Performance: Accuracy, Features and EMR Integration/Workflow

### **Contact your MIR Specialist for Minispir**<sup>™</sup>

### **FlowMIR**<sup>TM</sup>

#### PATENTED DESIGN

Minispir™ uses the FlowMIR™ cost effective and factory calibrated disposable Mouthpiece/Turbine

Calibration Free

FlowMIR<sup>™</sup> Turbine prevents the Minispir<sup>™</sup> spirometer to be exposed to patient inspired and expired air **Cross-Contamination Free** 

FlowMIR™ Turbine Order Code 910004

## Minispir<sup>TM</sup>

- Directly connects to a PC via USB (No cradle or battery required)
- A great device for Pulmonologists, Respiratory
   Therapists, Allergists, General Practioners,
   Pediatrics, Occupational Medicine, Sports Medicine,
   and Cardiologists to assess respiratory pathologies

#### $WINSPIROPRO^{TM}$ SOFTWARE

### Each Spirometer includes free WinspiroPRO™ PC Software:

- ✓ Data Management and Interactive Platform that provides incentive routines and enables EMR connectivity
- ✓ includes incentive system to improve patient compliance during Spirometry test

# The Minispir<sup>TM</sup> Spirometer

Includes FVC, VC&IVC, MVV, PRE and POST BD & Bronchial Challenge tests
Wide selection of predicted values
Real time Flow/Volume loop and Volume/Time Curve with PRE/POST comparison
Automatic Spirometry interpretation with alert messages
ATS compliant and supports NHANES III standard
Multi-language interface
Incentive system to improve patient compliance during spirometry test
